APOLLO 15 EVA PHOTO — Astronaut David R. Scott, Apollo 15 commander, works at the Lunar Roving Vehicle during the Apollo 15 lunar surface extravehicular activity at the Hadley-Apennine landing site. Hadley Rille is at the right center of the picture. Hadley Delta in the background rises approximately 4,000 meters (about 13,124 feet) above the plain. St. George Crater is partially visible at the upper right edge. This photograph was taken by Astronaut James B. Irwin, lunar module pilot. This view is looking almost due south.
