

ASTRONAUT IRWIN SALUTES FLAG AT APOLLO 15 HADLEY-APENNINE LANDING SITE.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

APOLLO 15 EVA PHOTOGRAPH—Astronaut James B. Irwin, lunar module pilot, gives a military salute while standing beside the deployed U.S. flag during the Apollo lunar surface extravehicular activity at the Hadley-Apennine landing site. The flag was deployed toward the end of EVA-2. The Lunar Module “Falcon” is in the center. On the right is the Lunar Roving Vehicle. This view is looking almost due south. Hadley Delta in the background rises approximately 4,000 meters (about 13,124 feet) above the plain. The base of the mountain is approximately 5 kilometers (about 3 statute miles) away. This photograph was taken by Astronaut David R. Scott, Apollo 15 commander.
