

APOLLO 14 LUNAR EXPLORATION

FRA MAURO

Moon Landing Site

Astronauts Shepard and Mitchell conduct lunar exploration using the Modular Equipment Transporter "Rickshaw." On the Cart is a place for lunar handtools, three cameras, two sample container bags, spare film magazines and a lunar surface penetrometer.

*Lunar Module 'Antares' lands on the Moon 4:18 A.M. EST 5 Feb.
'Antares' Lift-off from the Moon 1:48 P.M. EST 6 Feb.*

APOLLO 14 FRA MAURO AREA (Moon landing site)

Diagram shows two traverses planned for the two astronauts during the two moon walks of 10 hours.

After a rest period the second EVA will start. The astronauts will travel to the Cone Crater one mile away.
